▲ PRIMROSE VILLAS, CHIKMAGALUR

Tucked away in the mountains surrounding Chikmagalur, the swanky cottages of Primrose Villas make you feel close to nature, what with the all-round, full-length glass windows that bring the outside in. The Victorian decor is a curious contrast, with elegant chaise longues and cosy love seats. Each villa is surrounded by a private space, so by all means leave the curtains open and let the summer sun in as you take in the rolling greens of the Mullayanagiri mountains. Primrosevillas.com
